SUMMARY

With over 3.5 years of professional experience in Banking, Finance, Insurance Services, and Business Process Management, I have developed a comprehensive understanding of client support, project management, and operational optimization. My career has been focused on driving process improvements, delivering client-centric solutions, and effectively managing cross-functional projects. Currently, I am transitioning to the IT sector, with a focus on the MERN stack, to expand my technical skill set and integrate it with my business expertise. I am eager to contribute to technology-driven initiatives and leverage my background in operations and client management to deliver impactful solutions in the digital landscape.
